# Crypto ETPs *Backed by Crypto Specialists*

Bitwise is one of the world's leading crypto specialist asset managers. Thousands of financial advisors, family offices, and institutional investors across the globe have partnered with us to understand and access the opportunities in crypto. Since 2017, Bitwise has established a track record of excellence managing a broad suite of index and active solutions across ETPs, separately managed accounts, private funds, and hedge fund strategies – spanning both the U.S. and Europe.

In Europe, for the past four years Bitwise (formerly ETC Group) has developed an extensive and innovative suite of crypto ETPs, including Europe's most liquid bitcoin ETP (BTCE), or the first diversified Crypto Basket ETP replicating an MSCI digital assets index.

This family of crypto ETPs is domiciled in Germany and approved by BaFin. We exclusively partner with reputable entities from the traditional financial industry, ensuring that 100% of the assets are securely stored offline (cold storage) through regulated custodians.

Our European products comprise a collection of carefully designed financial instruments that seamlessly integrate into any professional portfolio, providing comprehensive exposure to crypto as an asset class. Access is straightforward via major European stock exchanges, with primary listings on Xetra, the most liquid exchange for ETF trading in Europe. Retail investors benefit from easy access through numerous DIY/online brokers, coupled with our robust and secure physical ETP structure, which includes a redemption feature.

## Risk Warnings

- Cryptocurrencies and products linked to cryptocurrencies are highly volatile.
- You can lose some or all of your investment.
- Risks of investing are numerous and include market, price, currency, liquidity, operational, legal, and regulatory risks.
- Exchange traded products do not offer a fixed income or match precisely the performance of the underlying cryptocurrency.
- Investment in cryptocurrencies and products linked to cryptocurrencies are only suitable for experienced investors and you should seek independent advice and check with your broker prior to investing.

## Before investing in crypto Exchange Traded Products ("ETPs"), potential investors should consider the following:

Potential investors should seek independent advice and consider relevant information contained in the base prospectus and the final terms for the ETPs, especially the risk factors. ETPs issued by Bitwise Europe GmbH are suitable only for persons experienced in investing in cryptocurrencies and risks of investing can be found in the prospectus and final terms available on [www.bitwiseinvestments.com/eu](http://www.bitwiseinvestments.com/eu). The invested capital is at risk, and losses up to the amount invested are possible. ETPs backed by cryptocurrencies are highly volatile assets and performance is unpredictable. Past performance is not a reliable indicator of future performance. The market price of ETPs will vary and they do not offer a fixed income or match precisely the performance of the underlying cryptocurrency. Investing in ETPs involves numerous risks including general market risks relating to underlying, adverse price movements, currency, liquidity, operational, legal and regulatory risks.
